## PRESS RELEASE

### Opening of Mirabel Helico, a new ultramodern multiservice complex for helicopters in Mirabel

Mirabel, Quebec, June 12, 2015 – It is with great pleasure that Mirabel Helico along with its partners Airbus Helicopters, MHS Mirabel Heli Support and Helipsair has officially inaugurated its brand new multiservice complex that is fully dedicated to the helicopter field and is located in Mirabel.

This 43,000-square-foot complex was developed and established to meet the specific needs of the aeronautical industry. “For the purchase, rental or storage of helicopters, to take flight training courses, perform pilot-related work or helicopter maintenance, or to establish your place of business, Mirabel Helico is the destination of choice in Quebec,” comments Andrée Courteau, President of Mirabel Helico.

Mirabel Helico is the result of collective effort, passion and expertise. The objective of this multiservice complex dedicated to the helicopter field is to offer unique facilities in Quebec and to allow its partners, guests and customers to practice their passion or benefit from a full range of professional services.

## MIRABEL HELICO

Established since 2007, Mirabel Helico is a privately-owned company dedicated at becoming the point of reference within Quebec’s helicopter industry. Mirabel Helico and its partners share common values, with safety, innovation and top quality workmanship at centre stage. Mirabel Helico offers a full range of services, including the purchase and rental of helicopters, maintenance services, pilot training, aerial work, ferrying, and more. ([www.mirabelhelico.ca](http://www.mirabelhelico.ca))

Helipsair is a flight training unit and a commercial helicopter company. Helipsair’s services include helicopter transport, aerial work, customized flights, and international flight training for private and commercial pilot licences on all types of helicopters. ([www.helipsair.com](http://www.helipsair.com)).

Mirabel Heli Support is a maintenance centre approved by Airbus Helicopters and Transport Canada. This growing company performs maintenance work on the following types of helicopters: H 120, H 130, AS 350/355, SA 341, Bell 206, Bell 407, Bell 222, R22 and R44. With a strong expertise on commercial aircrafts as well as in the manufacturing field, MHS specializes in helicopter re-lifing and major repairs. ([www.mirabelhelisupport.com](http://www.mirabelhelisupport.com)).

Airbus Helicopters Canada is a subsidiary of Airbus Helicopters and a leading supplier of helicopters in Canada. Its helicopters are used across the country in key parapublic and civil roles which include law enforcement, emergency medical services, oil and gas, mining, firefighting, hydroelectric utilities, environmental surveys, tour and corporate transport. Airbus Helicopters was established in Fort Erie, Ontario in 1984, and has additional operation facilities in Richmond, British Columbia and Mirabel, Quebec, as well as a support and customer service network in place to support a fleet of over 690 helicopters in the country. The company recently celebrated over 30 years of success in Canada. ([www.airbushelicopters.ca](http://www.airbushelicopters.ca))
